Overview

la meccanica
Technology & Experience at your Service

La Meccanica provides comprehensive solutions tailored to the pelleting industry.

Our mission embodies our corporate philosophy: delivering durable products, efficient production, sustainable manufacturing, and high-quality food for human consumption.

la meccanica
Technology & Experience at your Service

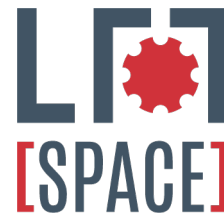

Our production network comprises four companies working in synergy.
By sharing resources, technologies, and expertise, we drive innovation and contribute significantly to the growth of the sector.

After sale service & Customer care for
international market
Special machines
(fat coating, vacuum coating etc.)

After sale service & Customer care
for Italian Market

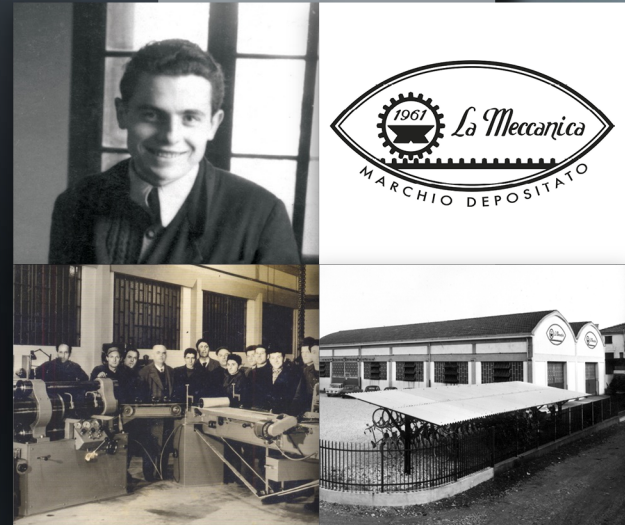

Center for training and knowledge
sharing, dedicated to internal teams and
local companies.

1: Our story

Founded in 1961 by Ottorino Reffo in Cittadella, La Meccanica brings over 60 years of expertise in animal feed, fertilizers, bio-energy, and recycling.

Founded in 1961 by Ottorino Reffo in Cittadella, La Meccanica brings over 60 years of expertise in animal feed, fertilizers, bio-energy, and recycling.

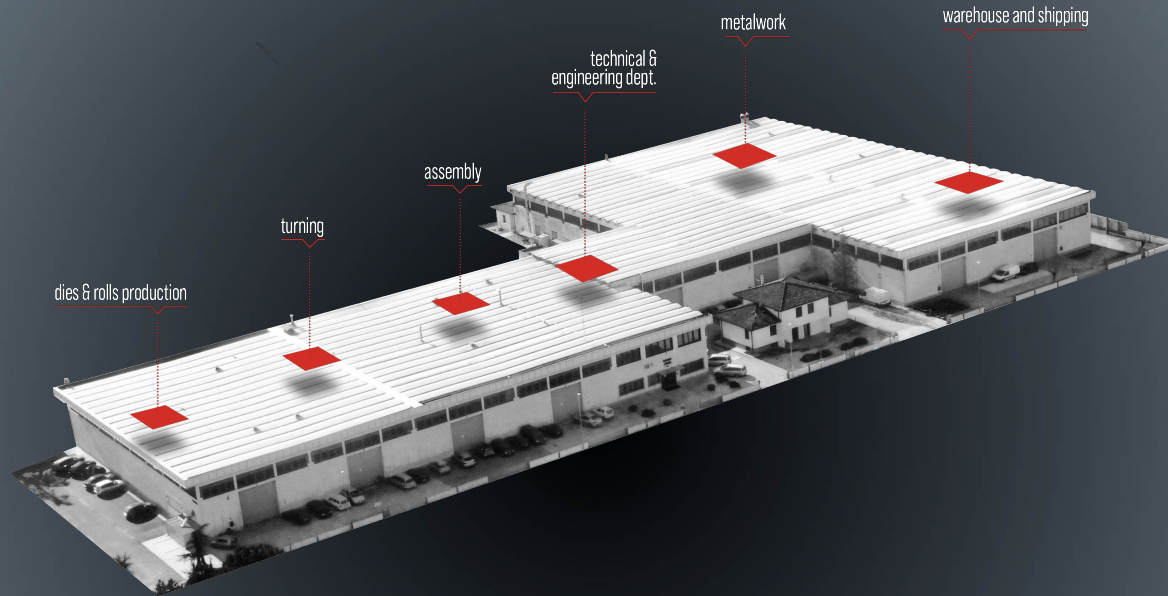

The company is currently headed by Roberto and Nicola Reffo, who both serve as CEOs.

This family leadership guarantees the preservation of our core values: **technical excellence, quality, and reliability.**

These presses were entirely in-house engineered and manufactured, marking the company's entry into the specialized animal feed sector.

1967: a turning point

Current standing and global footprint

La Meccanica employs approximately 105 people from a 10,000 m² factory. The company holds an excellent worldwide reputation, supported by over 1,500 installed pellet mills globally.

2: Network

In 1973 we chose Germany as the first step in our process of internationalization.

In 1973 we chose Germany as the first step in our process of internationalization.

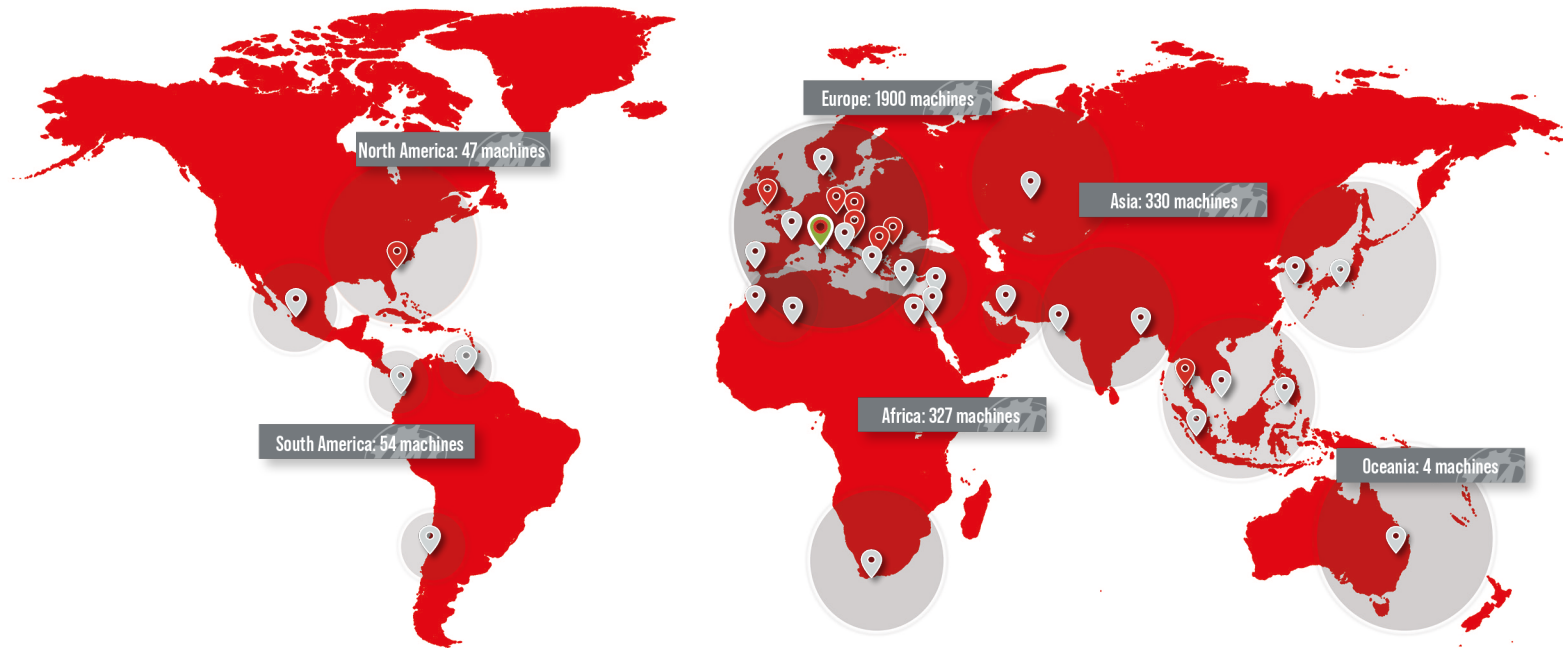

Meeting new realities
and business models
worldwide allowed us
to become increasingly
competitive and
sensitive to the needs of
our clients.

60 countries.

35 agents & distributors

3: Markets

Markets of operation: a cross-sector commitment

Markets of operation: a cross-sector commitment

4: Our strengths

Reliability

Rigorous technical approach

Comprehensive product range

Custom-engineered solutions

The value of Made in Italy

La Meccanica embodies the highest standards of Made in Italy engineering.

5: Products

Advanced machinery

A comprehensive range of machinery providing a specific solution for every requirement.

Pellet Mills

Hammer Mills

Vibrating Sifters

Mixers

Advanced machinery

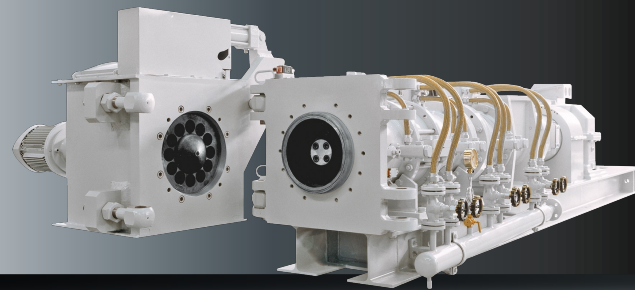

A comprehensive range of machinery providing a specific solution for every requirement.

Coolers

Crumblers

STHT Expanders

Advanced machinery

A comprehensive range of machinery providing a specific solution for every requirement.

Cold fat addition

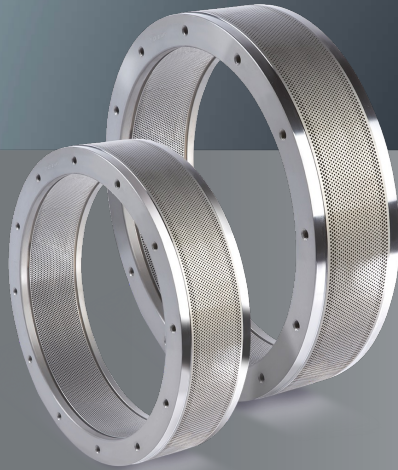

Super sanitizer

Vacuum fat addition

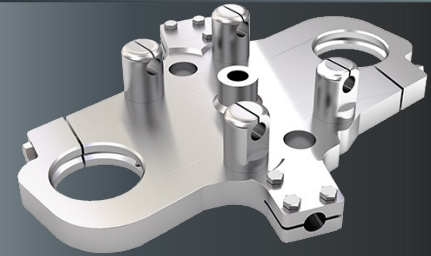

Dies, rolls and spare parts

2.300 dies / year

7.000 rolls, shell / year

5.000 active codes

Machinery for plants

Integrated projects and consulting

- Oscillating Sifter
- Vibrating Sifter
- Sanitizer
- STHT Expander
- Ribbon Mixer
- Paddles Mixer
- Horizontal Hammer Mill
- Vertical Hammer Mill
- Pellet Mill
- Horizontal Cooler
- Counterflow Cooler
- Vertical Cooler
- Crumbler

La Meccanica goes beyond supplying machinery:
we offer comprehensive technical consulting to optimize your entire production process.

6: Value to the people

Academy and Training Center

The aim of the Academy is to train employees, keeping them up-to-date on the latest innovations in the technical and automation fields. Its strong points are:

Technical Training

Research and development

Sharing of knowledge

We give value to the people

peoplefirst@lameccanica

For the Reffo's family, people have always been the most valuable asset.

For this reason, following the philosophy of its founder,
La Meccanica has established an effective corporate welfare system, whose key points are:
health, education, family and leisure.
